Dept attaches great importance retention substance para 1, Art XI, especially since issue made of it. Essentially embodies very elementary right, namely, freedom conscience for Americans and right American community have own churches where they can peaceably worship pursuant own faith. Does not (repeat not) accord rights to other than American nationals; nor provide, contrasted with religious activities in first three Articles, for proselyting or other activity outside congregation bearing on non-Americans. Hardly believed proposed rule provided much if any more than things already tolerated for years in Italy or which Italy agreed to in Art XV Peace Treaty.

Dept notes first Art 1929 Lateran Treaty apparently incorporates by ref first Art 1848 Treaty. Latter provides in part that QUOTE other cults presently in existence are tolerated in conformity with the laws UNQUOTE. This apparently

Such preference would be consequential and without justification on grounds economic, practical or legal necessity. Additional preferences behalf Italy would contradict larger US policy seeking elimination preferences, as witness US position ITO discussions. Moreover, ultimate administration and status Ital colonies still undecided and thus improper for US possibly now prejudice future international action re their international trade relations.

Ref Embtel 2863, Sept 20, Art III. Banking commissioners, Ill., Mass., NY., and Penna each reports laws and regulations re chartering subsidiaries foreign banking companies remain unchanged; and indicates Itals have technical legal opportunity each state start anew banking subsidiaries (ref to as trust companies) such as existed prewar. However, administrative policy may affect prospects since laws usually give bank comms considerable discretion.

NY reports dissatisfaction operation old Banco di Napoli Trust Co. because catered almost entirely Ital speaking clientele. Administrative policy would be against permitting reestablishment in old form with deposit receiving functions, since present banking facilities declared adequate serve all needs depositing public. However, establishment Ital trust company might be favored if primary purpose facilitation foreign trade. For your info, Dept recommendation was invited as to establishment new agencies of Ital banks (e.g. the Banco Commerciale Italiana,

Italiana, which can do everything bank can except receive deposits).

Penna reports existing banking facilities considered adequate most areas where new banks have recently been sought, and for past several years most new charter applications rejected this reason. Suggested this might be most important factor determining whether Ital Trust Cos. can be reestablished. Implication, however, that Ital interests would be given equal consideration with American interests. Noted in passing that law still requires two-thirds incorporators be Amcitizens.

Mass. and Ill. failed specifically answer inquiry re possible administrative policy difficulties. No inference they would reject Ital banking application.

Emb may use this info at discretion, but without engaging Dept responsibility over how any state might actually treat specific application reestablishment prewar Ital controlled company.

Tenth Meeting in Negotiations Between the United States and Italian Delegations for a Treaty of Friendship, Commerce and Navigation

LIT (36) (40)

Approved:

UNCLASSIFIED

Participants:

For the United States: Messrs. Ainsworth, Setser.

For Italy: Mr. Lombardo, President; Messrs. Simonis, De Vera, De Rossi, Serrentino, Ippolito, La Rosa, De Luca, Timarco, Maresca, Sensi, Col. Gremonese.

Time: 10:00 A.M. October 10, 1947.

Place: Palazzo Chigi.

The Italian delegation submitted a draft convention on the recognition of academic degrees for transmission to the U. S. Government. They stated that, if the Federal Government could not make such an agreement, the Italian Government would like to make arrangements directly with the American Universities, with the Federal Government agreeing to recognize such agreements and to aid in making them. The American delegation agreed to transmit the draft and the alternative proposal to their Government.

The American negotiators stated that they had recently received additional instructions from their Government, and, on the basis of these instructions, wished to submit a number of proposals and explanations for the consideration of the Italian delegation.

Article XIII

Paragraph 3. The American delegation stated that it was authorized to agree to the proposal of the Italian delegation that this paragraph be dropped from the Treaty. It said that it wished to have it clearly understood, however, that the purpose of the paragraph was to forewarn the alien of the consequences under United States law of refusing military service, and that the United States policy of debarring aliens from citizenship for refusing military service will in all probability be continued.

The Italian

The Italian delegation stated that the amendment and explanation were satisfactory.

Article XIV

Paragraph 4. The American delegation said that it was authorized to state that the United States Government understands that the public notice rule in this paragraph is designed to allow traders to plan their operations when the Government administers an import-export control system, the implementation of which it is possible to establish in advance and that the use of the term "general rule" indicates that it is not intended to require obviously impossible notices when the import system is necessarily functioning on a highly uncertain or day-to-day basis dictated by the present acute foreign exchange situation.

The Italian delegation stated that this explanation was satisfactory to them, and that they had no further objection to this paragraph.

Article XV

Paragraph 1. The American delegation stated that it was authorized to agree to the amendment of the first sentence of this paragraph as follows:

1. Laws, regulations of administrative authorities and decisions of administrative or judicial authorities of each High Contracting Party that have general application and that pertain to the classification of articles for customs purposes or to rates of duty shall be published promptly in such a manner as to enable traders to become acquainted with them.

The Italian delegation stated that the amended paragraph was acceptable to them.

Article XXIV

The American delegation is authorized to add the following as separate sentence, part of sub-paragraph (e), at end of Paragraph 1:

> If the International Monetary Fund should cease to function, or if either High Contracting Party should cease to be a member thereof, the two High Contracting Parties, upon the request of either High Contracting Party, shall consult together and may conclude such arrangements as are necessary to permit appropriate action in contingencies relating to international financial transactions comparable with those under which exceptionable action had previously been permissible.
